

Case Log Instructions for the EMSAVM and MASVM

Dentistry

Case log explanations and instructions:

200 patients are required.

Clinical Category

One patient may undergo several clinical categories. Each category needs to be filled in as a case separately. Example: cat with gingivitis, fractured 104 and 307 308 affected by TR2 underwent: prophylactic procedure, endodontic treatment of 104 and crown amputation of 307 308. Each of these 3 categories needs to be logged and described separately.

1. **OS** Oral surgery which includes: nonsurgical extractions and crown amputations, surgical extractions, oral fracture repair, major oral surgeries and soft tissue surgery
2. **PE** Periodontology with: COHAT, subgingival debridement, pocket reduction (gingivectomy, gingivoplasty), surgical periodontology: flaps, GTR
3. **EN** Endodontics with conventional endodontics, vital pulp therapy and surgical endodontics, restoration performed after endodontic treatment is a part of endodontic procedure
4. **OR** Orthodontics: Orthodontic consultation, interceptive orthodontics, passive and active orthodontic treatment
5. **RE** Restorations and prosthodontics that include dentinal bonding, restorations and prosthetic treatment
6. **OM** Oral medicine: extended imaging diagnostics, treatment plan, in vitro procedures, tests

In the case log the following rates of categories are required:

OS-45% with maximum half of simple extractions and crown amputations

PE-35% with maximum half of COHAT

EN-5% with at least half being a standard endodontic procedure

RE-5%

OM-5%

OR-5% with maximum half of orthodontic consultations

Patient: needs to have name of the animal and surname of the owner (the latter non-mandatory due to personal data protection) Species:

Dog, Cat

Age: expressed in years and months

Primary complaint: highlighting main reason for coming to surgery or major findings that made recommendation for dental procedure. It also can be referral case with main request from referring veterinarian

Diagnosis: must include all relevant dental findings after clinical and radiographic examination (if applicable) with the use of abbreviations (Appendix 1)

Dental Procedures: must include all performed dental procedures adequate to diagnosis column. if a part of problems postponed or declined - please note this.

Follow-up: note the time after the procedure you did, the recheck exam and findings, for endodontic treatment - 6 months follow up are required

Example how to log cases/categories:

Case No.	Category	Patient	Species/Breed	Age	primary complaint	Diagnosis	Dental Procedure	Follow Up
1	OS	Andy/Smith	Dog/Shih Tzu	2 years 0 months	Missing teeth	DTC 411	DTC/R 411	5 weeks follow up: Perfect healing - no sign of new cyst formation on radiography
7	PE	Juul/Luka	Dog/Bichon havanais	8 years 0 months	Referred periodontal disease treatment	PD2 204, 208,209,301,104,108,109	RP/C 204,209,301,104	
11	RE	Sisi/Buch	Cat/DSH	8 years 6 months	Tooth fracture	T/FX/UCF 208.	Dentinal bonding 208/	9 months follow-up: Clinical and radiographpic examination fine
16	OR	Niebuhr/Karla	Dog/Labradoodle	7 months	Canine impinges into gingiva	Mal1/LV 304. Missing tooth 107	GV 203/204	
24	EN	Frederiksen/Fenja	Dog/mixed breed	4 years 11 months	Tooth fracture	T/FX/CCF 108	RC 108	6 months: Clinical and radiographpic examination fine
32	OM	Pretzel/Johnson	Dog/cairn terrier	8 months	Missing Teeth	HYP 105,106,205, 301,401,406,306,411,311. DT 506	RAD	

The case log needs to be compiled as an Excel file using the template in the appendix.

Upon submission of your completed log, the evaluator will request the **detailed documentation** of **6 select cases**. Please provide the documentation shortly after being prompted as follows:

1. Provide each case in **PDF format in reduced file size** (15–20 MB for all should be maximum)
2. Format each case like a **small presentation** with inclusion of the dental chart, relevant **photographs** and **radiographs**, which justify the content of the case log.

A case log may not be acceptable and may be rejected in its entirety if critical concerns regarding one or more categories result in a fail, regardless of whether all other required criteria are adequately met.
